

AMENDMENTS TO THE SPECIFICATION

Replace paragraph [0214] of the publication of the specification with the following amended paragraph:

Note that the operation of each of the unit 11, the exchange completion data keeping device 21 and the public data keeping device 31 illustrated in the first embodiment can be implemented by a program to be run by a general-purpose computer device. Such a program is stored in a non-transitory computer-readable recording-storage medium such as a hard disk, an optical disk, a CD-ROM, a memory, or the like, and is run by a CPU, or the like.
